

THE BENEFITS OF MULCH-MOWING

SAVES MONEY

- Reduce the money you spend on fertilizer by using what nature has provided!
- Skip the unnecessary landscaping bags.
- Avoid any additional disposal fees.

SAVES TIME & ENERGY

- Mulching leaves and grass clippings in place is easier and faster than raking, bagging, or blowing to the curb.
- Just continue with your mowing routine!

SAVES THE ENVIRONMENT

- Skip the transportation and disposal of yard trimmings. It wastes energy and contributes to pollution.
- Save space in landfills by letting your scraps decompose naturally and create a greener, healthier lawn thanks to the natural fertilizer.
- Help the wildlife in your yard. Scraps are essential to many animals that rely on them for food and shelter building.
